

**Amendments to the Specification:**

Please amend the specification as follows:

Please replace paragraph number [0042], with the following rewritten paragraph:

**[0042]** The second electrode is preferably located on the upper thorax, more particularly on the upper thorax below an armpit, more particularly on the side of the upper thorax, more particularly on the side of the upper thorax below the armpit, even more particularly on the right side of the thorax at the ~~V5, HV5, V6, or HV6~~ V5R, HV5R, V6R, or HV6R locations, or alternatively on the left side of the thorax at the V5, V6, HV5, HV6 locations. Of course, non-standard positions may also be used.
